The Government to Government ERP Forum was held at the Radisson Hotel on May 12th and 13th, 2008. The Forum was hosted by the Financial Information System for California (FI$Cal), California Office of the State Chief Information Officer, and Gartner, Inc. Nearly 200 state and local government officials, from California and 15 states across the nation met at this two-day conference to discuss approaches to modernizing government operations through the use of major integrated enterprise resource planning systems.
